WIRE RULE

down on my knees
can't heed you
no need to
I am guilty

down on your knees
can't heed you
and stay with me

branches flashes
towards hours and hours
of inactivity

churning plans
towers and towers
of insecurity

down on my knees
no need to
I am guilty

down on your knees
can't heed you
and stay with me

up off of my hands
where will i land
just move away from
to segregate from
how to decipher you
knowing that there's no clue
caution with fire due
blue and red wire rule

PIRATES

you are supposed to figure out
what's going on
and understand
you know they don't travel

left to right turn, directing
which way to go
and to command
the way that you feel it

everything's been won
there's nothing left to rob
people like me, scattered,
we can't find each other
do what you're supposed to do
the jobs, the house, everybody has to

canons don't thunder, nothing left to plunder
it's all up in the air
just let them work the ropes
promise you will share

types of investments, caves and connections
planes trains get you there
never left stranded, caught red handed
bank machines everywhere

everything's been won
there's nothing left to rob
people like me, scattered,
we can't find each other
do what you're supposed to do
the jobs, the house, everybody has to

You're supposed to figure out
what you're supposed to do

You're supposed to figure out
what you're supposed to do

THE GOLD ROUTE

the gold route
the lead route
the copper stain
my handkerchief
one fleck blood
raw knuckles again

departure
it's coming with me
so wish to prove to you

my worthiness of investment
aluminium
flame is fading
clearing out all tunnels
flush gravel and ceiling

the gold route...

division
it's knocking at you
collapsing limits
rebel in feeling

towards scratching
my own map
of decisions
to reason

the gold route...

you're maybe breaking
your seams split with aim
i wanted you to hatch out of
your decisiveness contained

Now view defeat
cold cold beat
talk talk away instead
see simply
this party has voted wrongly
and it's a big change

the gold route...
Now view defeat...

PURIFY

i have an aversion in capitals
a burden to carry on the back of this
a hurdle: this task: a dis
when when when when when when when

there is no sense of responsibility here
there is no chance of reassurance here
there is no sense of responsibility here
there is no reason, nothing
nothing to be proven here

I have an aversion in capitals
a burden to carry on the back of this
the task: a dis, chances have passed
forgiveness don't last like this

a burden to carry on the back of this
the task: a dis, chances have passed
forgiveness don't last like this
cause when, when
you blame you blame you blame

and there is no sense of responsibility here
there is no chance chance chance of reassurance here
there is no sense sense no sense sense
there is no reason reason no no no reason
there is no sense sense
there is no reason no reason

i can't have to prove to you
just to say as if i know how
oh and i can't have to prove to you
to prove to you
that i know how

there is no sense sense no sense sense
there is no reason reason no no no reason
there is no sense no sense no sense sense
there is no reason reason no no no reason

MONKEY EFFORT

monkey effort
there's no last straw
sounds to question
a list of rules you found
disowning any conflict with you
clasp your teeth around

hunter and gatherer
lay your claws down
mouths are vessels

clasp your teeth around
disowning any conflict with you
clasp your teeth around

any conflict
with you
disowning
any conflict
with you
disowning
any conflict
disowning
any conflict

TAKE OVER

getting there, getting nothing done
being fair, making something undone
sidesteps, check an error
check an error

attempting to establish
some basic connection
I wish I had a change of pace
in order to trace where

all trouble comes from, migrating in reverse
back to the origins, sidestepping in reverse
now that i found you, now that i let you go
take it to the road and run
looking for your face to show

getting there, getting nothing done, being fair
making something undone, spell check, make an error
like its an advantage, no maps and no language
wish i could name the face to understand or trace where

all trouble comes from migrating in reverse...

Excuse me sir:
can you speak to me in a language, i don't understand
no big deal, It's just that I'm obsessed with
attempting to establish some basic connection
between body, history, destiny, politics of language
and psychology is no way to establish
some basic connection
oh wait i had a change of pace
and take - over, where all the trouble comes from
migrating in reverse back to the origins, he said he's first

where all the trouble comes from

ALTAR

what are these offerings for
laid in front of your door
painted caves with hands, who is to blame
scratched inside is your own name

altar, i will make a shrine for you
they will ask what can they do for you
base all reason on a feeling
to hope for healing

STONE HEAD

demand a reason to demonstrate
what leading is
elaborate on, how to relate to
what this feeling is
statues of bodies frozen in a state
of what ruling is
hesitating how to believe in
what was written

crowned in your name
your head is a stone
roll over, roll off your shoulder
crowned in your name
your head is a stone
roll over, roll off your shoulder

stand position, picture of trust
that believing is
graffiti tag to deface what
this pressure is

WHEN TO LEAD AND WHEN TO FOLLOW

try to be speechless for a minute, try not to stare
lay bare misgivings you have, no need to share
blinded like the horses pulling carts
confident like a dare, dropping everything in plain site
just to be there

anything can be shocking in a minute, you can't prepare
breaking all habits, lose the tablets, it's only fair
matt, black, raw and hollow, held inside a constant bark
on edge, on the corner, holding up your chest
hoping you know best, yes, but beware
when chest starts to whistle, time to listen
what i'm missing right

or
when to lead and when to follow, but beware
when chest starts to whistle, time to listen
what i'm missing

I oh I oh I oh

how to lead, when to follow, how to prepare
breaking all habits, puzzle fragments, build a square
fingers crossed, you'll dock the boat
load the freight, hold the clock
why do i have to wait?

lately you've been holding up your chest
hoping you know best, yes, but beware
when chest starts to whistle, time to listen
what i'm missing right
when to lead or when to follow, but beware
when chest starts to whistle, time to listen

I oh I oh I oh

try to be speechless for a minute, try not to stare
lay bare misgivings you have, no need to share
blinded like the horses pulling carts, confident like a dare
dropping everything in plain site
just to be there
when to lead and when to follow
